

DO YOU
KNOW A
YOUNG CARER?

A guide to Health Conditions for Young Carers

You can view the guide here...

VoiCeS Northumberland have created an online guide to Health Conditions for Young Carers.

The guide provides Young Carers with information about the health conditions of the person they care for and the help that is available for their family. It also provides information about their own health and well-being.

You can download a copy of the guide using the Q Code above or by visiting the VoiCeS Website using the link below.
